

YOU'RE WINNING

THE RETIREMENT

GAME...

You've invested wisely. You've raised wonderful children that are now out on their own. Now you're walking through a house that is too big for you as you get ready for another crazy day at work and your thinking, is it time to retire and enjoy life?

After all, you've won the retirement game, right? Then you find out that Uncle Sam will take 30% to 50% of your hard earned money in taxes.

I feel your pain! And...
I've done something about it. There is no need to give away your hard earned money.

My name is **Carl Worden**
and I am a
Tax Deferral Consultant.

What is a
Tax Deferral Consultant?

A Tax Deferral Consultant uses tax structures to legally reduce, defer, or avoid capital gains taxes against hard assets like personal property, investment property, or businesses.

WE FOCUS ON MAKING YOUR DREAM A REALITY BY REDUCING TAXES WITH A SIMPLE 5 STEP PROCESS:

First, we determine if you have a tax Problem.

Second, we provide you with a Tax Reduction Questionnaire to review with your tax professional to confirm you do or do not have a tax bill.

Third, if you have a tax bill you do not want to pay, schedule a follow-up appointment to discuss your options.

Forth, once you have made a choice, we orchestrate meetings with our preferred service providers to continue your education and ensure we are selecting the best option for you.

Finally, we work with you to implement the best tax deferral strategies for you.

We are more than happy to meet with your tax professional at any time during this process.

WHY WORK WITH US?

We are not a one trick pony.

Let's face it, if someone is talking with you about one or two tax deferral solutions, they are not consultants. They are salesmen trying to sell you their product. We have ten tax deferral options and new ones are being added every year.

We are nationwide educators on the subject of Tax Deferral.

We have taught tax deferral strategies at over 100 real estate offices across the United States as well as lending institutions and CPA offices. In addition, we are on track to train over 100 Tax Deferral Consultants across the United States, so we have multiple consultants in every state of the union.

Our company puts our client's interests first. This is why we give you a Tax Reduction Questionnaire at our first meeting and request you review it with your trusted tax professional. We understand the world is full of people willing to sell you something you don't need. That is not us. We measure success based on the integrity of the decisions we make, not the dollars we put in our bank account.

We really, truly want you to make the best decisions possible on what is likely to be one of the biggest financial decisions of your life, and we have more options than anyone else.

If you're ready to retire but need help figuring out how to manage the tax bill, hit the link below to setup an appointment.
